

Welcome to VTech Contract Manufacturing

The **VTech CMS Division** is part of the VTech Group of Companies and is a Tier-2 Contract Manufacturer with decades of knowledge and experience. Our global customer base comprises of companies who seek Quality, Competence, Competitive Pricing, Engineering & Design Support, and a one stop shop Contract Manufacturer that is very familiar with all the aspects of medium to large volume electronic manufacturing of just PCBA's, sub-assemblies, and/or complete and turn-key products. Our CMS group can help the clients to convert an innovative conceptual design into a quality product. Due to the size of the VTech Group as a public company, the customer will benefit from the Corporate buying power. We also offer the necessary Design & Engineering Support to our clients.

The VTech Mfg Locations

Quality Manufacturing & Competence

We are continuously expanding and updating our manufacturing equipment in our 4 CMS buildings. We currently use 25 SMT lines (100+ in all VTech), all RoHS / REACH operations, with state-of-the-art equipment, including COB, BGA, and a clean room. In addition, we use In-Circuit Testers, Optical Inspection, and Top-Line Testers where necessary or requested by our customer.

Our manufacturing equipment can handle chip sizes as small as 01005.

We can also accommodate customer specific test equipment and integrate it into the process.

We are also providing the tooling, injection molding, and mechanical engineering manufacturing services.

Additional Test Services Which We Offer

Our customers often require our assistance from inception of the product and in turn, bringing it to volume production. Our Team is prepared to assist the client with:

- DVT Testing and DFM Testing
- Preparation for the Agency Tests
- FA &T , HALT, HASS Tests, Life testing
- Test Fixtures and Special Configurations
- Customer or Agency Specific Tests

A Glance at our CM Capabilities

The CMS Group has CM experience in all areas of electronic & high-tech applications. As part of our excellent Customer Support a very competent in house Engineering & Design team to support our clients from an early stage, conceptual project to volume production. In addition, our R&D Team can assist you in PCB layout & design based on your electronic schematic. Our core competencies include analog & digital circuitry, Wireless, LED applications, Mechanical Engineering, but also the tooling.

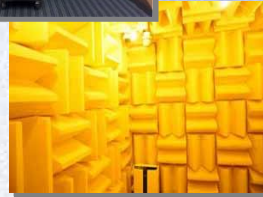

Time-To-Market == New Product Intro

The VTech CMS Team has decades of experience in helping clients to bring a new product to market or in helping the client to create the next, lower cost version, adding features, or re-designing an existing product model. Our Program Management Team which is assigned to each client, is comprised of a highly experienced group of program management engineers, procurement, design engineering, and quality staff. Our R&D Team is located in Shenzhen and can assist customers in their needs for New Product introductions. The R&D Team has significant experience in Audio applications and provides Audio Engineering support utilizing our own on site Audio Laboratory.

RFQ's, Just-In-Time & Supply Chain Mgmt.

The VTech Group of companies consolidates the procurement of parts and materials in order to obtain the best pricing structures from our vendors. This competitive pricing is passed on to our clients. VTech's Global Procurement is based on Just-In-Time deliveries and SCM is based on the popular SAP ERP software.

Corporate Social Responsibility & Quality

VTech CMS meets the requirements of SA8000. We have implemented the CSR methodology as a long term Management policy to maintain the VTech brand and reputation, to increase the operational efficiency, and to improve the customer satisfaction. Beside the issues of Health & Safety, the Environment, the Management System and our valuable employees, we also focus in our CSR heavily on Ethics and we operate at the highest standards.

The VTech CMS Quality System is derived from our Corporate Quality System which ensures highest quality volume manufacturing as in our other divisions. Whether we manufacture for you PCBA's or complete electronic products, the quality will be consistent and superior.
